At Sundance® Spas, we think you should

do more of what matters to you.

And with more than 35 years of experience crafting high quality spas, we take pride in helping people spend time meaningfully. So go ahead and relax more. Let your mind wander. Savor each and every moment. Celebrate life. Start your Sundance® lifestyle today. You deserve it.

Our Promise to You

"The quality, design and performance of the spa is exceptional. I look forward to using it almost everyday for relaxation and sleep enhancement, as well as the hydrotherapy benefits for a lower back injury."

- Ron R.

Sundance® Optima™ 880™ Series Owner

Connection

Our products provide an environment where you can nurture relationships and enhance your life, bringing social circles together and couples and families closer. By removing you from life's distractions, our spas give you exactly what you need to be your true self.

[www.sundancespas.com/
reviews](http://www.sundancespas.com/reviews)

Loyalty

Built on trust and a commitment to excellence, the relationship we have with our customers will always be our foundation. By carefully selecting each of our dealers, we can ensure that you are enjoying outstanding products and services that reinforce the reputation we have earned over several decades.

Craftsmanship

We want you to relax when you're in your Sundance® spa. So we give you the confidence that your spa has everything you need and nothing you don't. Backed by personal experience, a solid reputation for reliability and the best dealer network, you can focus on distraction-free interactions with those that mean most to you.

"It is so far superior to the old spa we had which was part of our pool as it actually has jets you can control and there are four great seats to choose from."

- Norm E.

Sundance® Optima™ 880™ Series Owner

It's more than a spa, it's a way of life

Once you experience it, you'll see why owners buy again and again: life is better with a Sundance® spa. Start your own **#SundanceLife** and join in the conversation.

Benefits of Hydrotherapy

Renewal

By getting a break from the pace of our lives and submersing in an emotional sanctuary, you can relax, rejuvenate and rehabilitate your body, mind and soul.

Stress-Relief

Everyday stress can create muscle tension and restrict blood flow, causing headaches, sleeplessness, fatigue and soreness. And how we feel physically can affect our thoughts, moods and ability to enjoy life to the fullest. Hydrotherapy is an effective solution to free your stress.

Healing

While water therapy of the past has evolved into modern hydrotherapy of today, Sundance® Spas continues the tradition of using the restoring properties of water – especially those involving warm water infused with deep massage – to provide the relaxation and nourishing rejuvenation for which the human body craves and immensely benefits from.

Art of Relaxation

The benefits of hydrotherapy go beyond relaxation; it is about restoring balance. And, in a Sundance® spa you will quickly feel the difference. The secret is in the Fluidix® jets, each designed to mimic a special technique of a trained masseuse. From deeply penetrating to soothingly calm, the more Fluidix® jet variety you experience the deeper sense of relaxation you can achieve.

Aromatherapy

Sundance® Spas was the first hot tub manufacturer to combine aromatherapy with hydrotherapy in an automatic fragrance system. Without lessening water quality, Sundance® SunScents™ are injected into bubbles and then released when they come to the surface, leaving you feeling renewed.

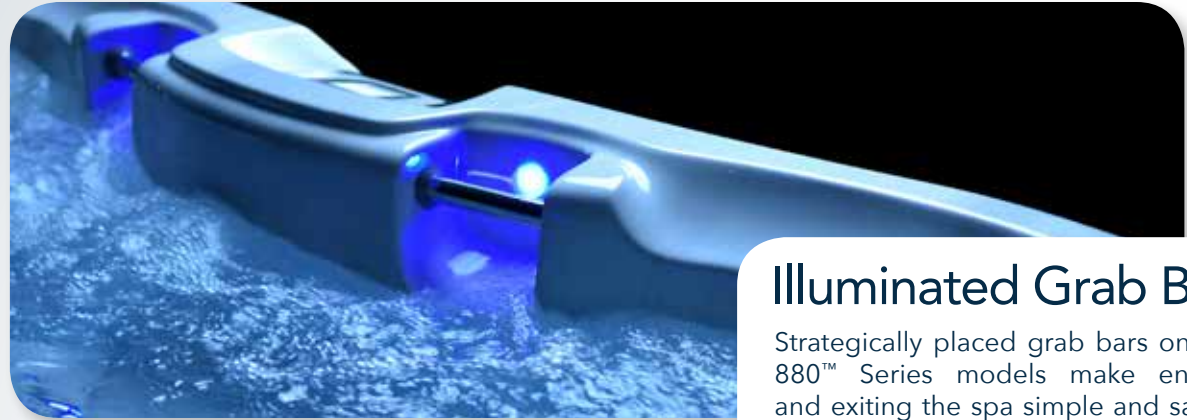

Chromatherapy

Light has a profound effect on our moods and peace of mind. Chromatherapy, also known as color therapy, uses individual colors in the spectrum to boost and balance energy in your body.

Built with You in Mind

Maximize relaxation with features that make spa ownership a breeze. Every element is designed specifically for your Sundance® spa for quality and reliability that's built in.

Illuminated Grab Bars

Strategically placed grab bars on most 880™ Series models make entering and exiting the spa simple and safe for everyone in your family.

Quick Release

Easily access the drain and critical components in your spa without tools, saving time and making maintenance trouble-free.

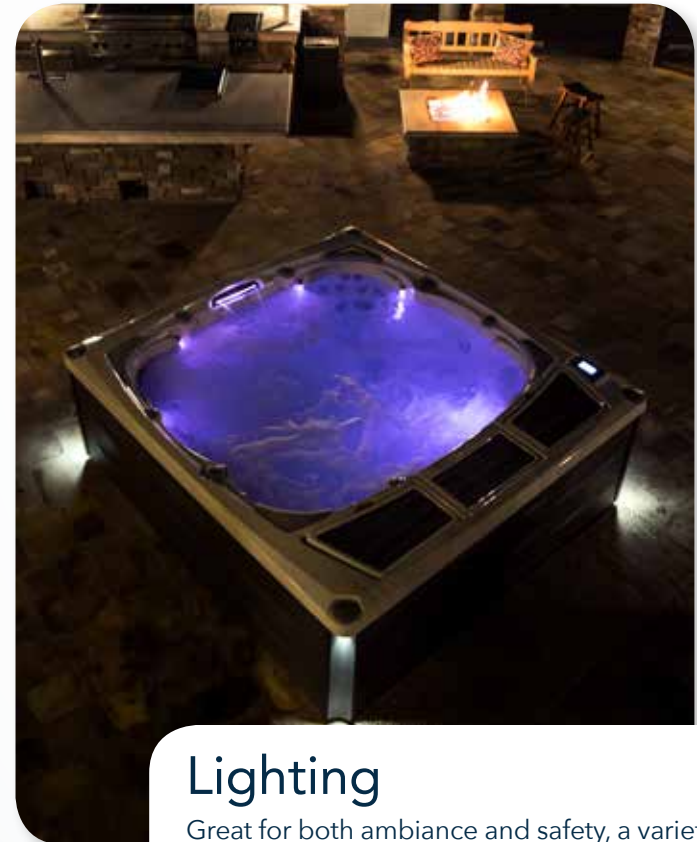

Quick Drain™

Quickly drain the water from your spa with an oversized drain that makes water changes easy.

Indicator Light

Check the status of your spa's functions with a quick glance at the exterior indicator light, which changes colors when your spa needs immediate attention.

(880™ model shown. Features vary by Series.)

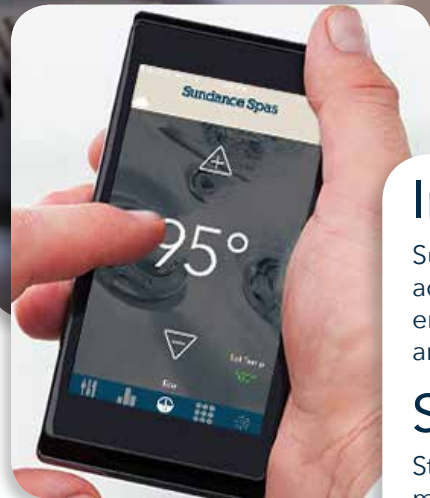

Lighting

Great for both ambiance and safety, a variety of spa lighting illuminates the inside and outside of select models for nighttime spa enjoyment.

Efficient Heater

Heating element transfers heat to the water, increasing thermal efficiency and resisting corrosion.

Intelligent Controls

Sundance® control panels do more than adjust jets and temperature; you can regulate energy-efficiency, lock the spa for safety and are easy to see at night.

SunSmart® 2.0 WiFi

Stay in tune with your spa remotely, from maintenance alerts to programming filtration whenever, wherever...24/7.

SunStrong® Skirt

High quality, UV-resistant synthetic cabinetry is durable and low maintenance.

Rigid Bond™

Proprietary shell lamination process makes it stronger and increases thermal retention properties.

Synthetic Base

Provides a solid foundation impervious to nature, moisture and the elements.

EcoWrap® Insulation

A more energy-efficient upgrade option for select models, ideal for harsh, winter climates.

Patented Fluidix® Jets

As you surrender to the warm, bubbly water of a Sundance® spa, you'll be whisked away by the right blend of heat, buoyancy and massage that will change the way you feel.

This care-free feeling starts with Fluidix® jets that operate without bearings that can clog or parts that wear out, combining air and water to create highly refined massage sensations. And, each jet is positioned to reach pressure points used in reflexology and acupressure so stress and strain can be a distant memory.

Even if you don't know the difference between Swedish massage and Shiatsu, you'll be enchanted by the variety of massage combinations Sundance® spas deliver. Every Fluidix® jet is assigned a distinct role, uniquely designed to simulate a specific massage action. Air-only jet streams feel like delicate fingers massaging soft tissues. Other jets act more like strong hands deeply kneading large muscles. And some even mimic the rapid, stimulating techniques of Eastern massage therapies.

Regardless of which Fluidix® jet combination you call your favorite, you can get the most from your Sundance® spa.

Deep Tissue

Using the principles of reflexology combined with warm water, these jets deliver a vigorous, deep-muscle massage with broad coverage that resembles strong hands deeply kneading large muscles.

Muscle Release

With combinations of circular strokes, firm kneading sensations and rhythmic percussion of popular Swedish techniques, these jets deliver a bold, targeted massage to increase circulation and promote relaxation.

Pressure Point

Utilizing the fine finger pressure massage technique founded by Eastern cultures, a Shiatsu-style soft, targeted stream of water stimulates vital acupressure points to release strain and discomfort.

Relaxation

Mimicking the feeling of delicate fingers massaging soft tissues, the gentle, broad coverage of comforting, bubbling water cradles the skin while soothing your senses.

980™

880™ Series

MAXIMUM MESSAGE COVERAGE

WHIRLPOOL JET

Adjustable, vigorous, deep muscle-penetrating massage known for its boldness.

VORTEX™ JET

Rifling action delivers swirling sensation for high and low impact therapeutic massage.

FLUIDIX INTELLI-JET™

Adjustable water flow and oscillating direction for a custom deep tissue massage.

FLUIDIX ST™ JET

Focused, deep-tissue jet stream adjustable for intensity and pressure.

FLUIDIX NEX™ JET

Adjustable to relieve neck tension and strain in small muscles and sensitive nerves.

FLUIDIX REFLEX™ JET

Adjustable, back and forth Swedish-style massage motion to increase circulation and relax your body.

ACCU-PRESSURE™ JET

Deep-tissue massage to relieve muscle tension and joint pain.

FOCUS RELIEF® JET

Adjustable soothing bubbles for either a concentrated deep tissue massage or soft tissue effervescent effect.

PULSATOR™ JET

Pulsing massage action to reduce discomfort of carpal tunnel syndrome in wrists.

SILENT AIR® INJECTOR JET

Injects a small, gentle stream of bubbles in the water that also diffuse the SunScents™ fragrance aromatherapy system.

Deep-tissue massage to relieve muscle tension and joint pain.

**SMT™
MICRO JET**

Medium, spiral action massage to ease tension-prone areas in small muscle groups and joints.

**ADJUSTABLE
ACCU-PRESSURE™ JET**

Adjustable deep tissue jet offers more control over your therapeutic experience.

Easy Water Management

Sundance® Spas filtration systems not only help to ensure clean, sparkling water, they also equal less maintenance. Through the efficient combination of highly effective filtering, water circulation and water skimming processes, a unique horizontal filter orientation and a circulation pump that filters seven times more water per minute than typical spas, you can spend less time on maintenance.

And, when you combine superior filtration with the CLEARRAY® UV-C Technology or CLEARRAY® UV-C Technology plus CLEARRAY® PRO₃TECT™ Automatic Oxidizer, you can achieve the clearest, cleanest water with this complete, hands-free option.

MicroClean®
Filtration

MicroClean® Ultra Filtration System

MicroClean® Ultra Filtration System with horizontal MicroClean® Ultra filter, SlipStream™ weir with SunPurity™ mineral cartridge fitting, Dynamic Flow™ circulation pump and CLEARRAY® UV-C Technology set the standard for robust, efficient water filtration.

980™ series

880™ series

MICROCLEAR®
ULTRA

MicroClean® Filtration System

MicroClean® Filtration System with horizontal MicroClean® filter, SlipStream™ weir with SunPurity™ mineral cartridge fitting, Dynamic Flow™ circulation pump and CLEARRAY® UV-C Technology make it easy to keep your water clean and fresh.

780™ series

SELECT® series

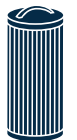

MICROCLEAR®

Traditional Filtration System

50-square-foot vertical filter and CLEARRAY® UV-C Technology raises the bar on traditional filtration.

680™ series

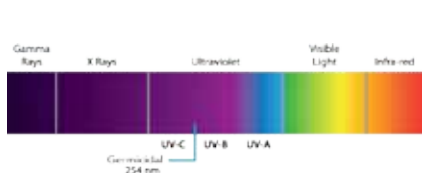

CLEARRAY® UV-C Technology

Treats water with the power of nature-inspired UV-C technology to neutralize waterborne pathogens, resulting in clean, fresh water.

- Treats 99.9% of waterborne pathogens
- Factory-installed exclusive UV-C Technology
- Easy care and maintenance with annual bulb replacement
- Durable stainless steel and quartz components

What is UV-C Light?

- A natural part of the spectrum of electromagnetic energy generated by the sun
- Effectively interacts with the DNA of bacteria and viruses, destroying their ability to reproduce
- Is a natural process that adds no by-product to your water

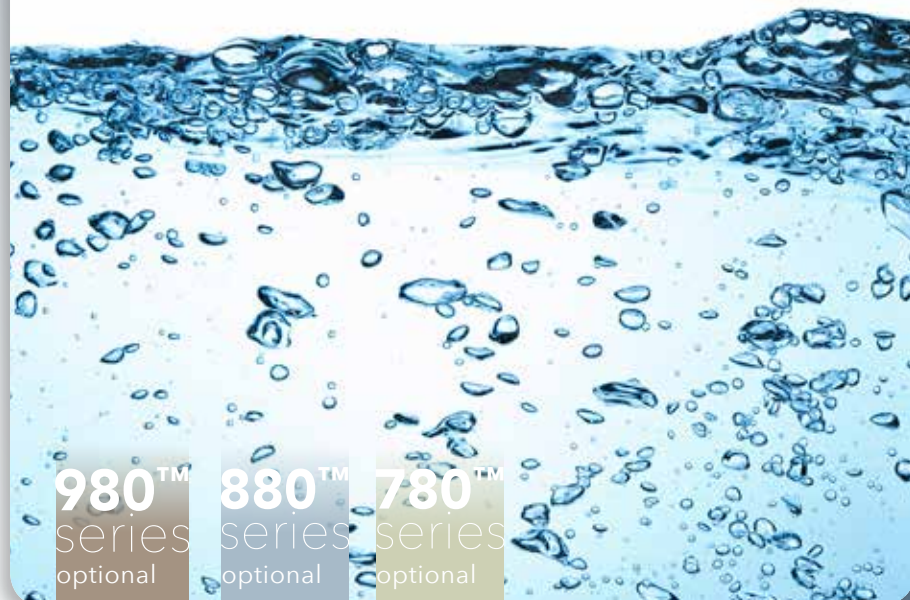

CLEARRAY® PRO₃TECT™

Low Output Automatic Oxidizer

Supports a hands-free approach to water care for clean, clear water

- Designed to work with CLEARRAY® UV-C technology, automatically oxidizing impurities in the water
- Low-output ozone has minimal off-gassing and prolongs life of equipment longer than traditional ozone systems
- This genuine Sundance® part is specifically calibrated to work with the filtration system in your spa
- Upgrade 980™, 880™ or 780™ Series spas to include either a factory installed option or available as an upgrade for select existing spas

Introducing the 980™ Series

Changing the way

you enjoy your spa

980™ Series

Founded upon consumer-favorite Sundance® spa features and laced with never-before-seen design and style, the 980™ Series will change the way you enjoy your spa.

Good Cause Spas™

At Sundance® Spas, we find purpose in connecting families and loved ones. By building a product that helps you engage in cherished conversations, experience deep relaxation, and recuperate, we understand just how essential a backyard spa can be.

Whether helping generations of families come together or giving back to those who give so much, supporting good causes in our communities simply feels like the perfect fit.

Please join Sundance® Spas and the Good Cause Spas™ movement in our support of the many worthy organizations that strive to help our neighbors, heroes, and champions.

**SUPPORTING OUR GEORGIA GUARD AND
RESERVE SERVICE MEMBERS & VETERANS**

Color Palette

Whether you're charmed by soothing shades or bold hues, selecting the perfect color combination starts with a pleasing palette that blends seamlessly with your backyard décor.

Step 1

Select your shell color

Designer's Corner

We had our world class designers pick some of their favorite pairings for your inspiration.

Acrylic Shells

Porcelain

Celestite

Platinum

Sahara

Oyster

Sandstone

Copper Sand

Monaco

Caribbean Surf

Midnight

Note: Color options vary by model. See dealer for details.

Step 2

Select your skirt color

Step 3

Select your cover type and color

Skirts

Autumn Walnut

Coastal

Mahogany

White Oak

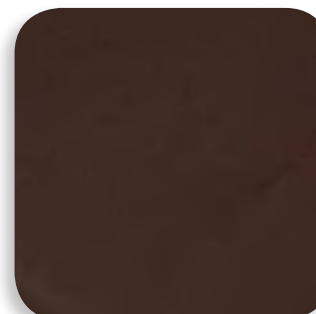

Note: Color options vary by model. See dealer for details.

Sunstrong® Covers

State-of-the-art

Gray

Sienna

Black

Vinyl Covers Traditional

Coastal

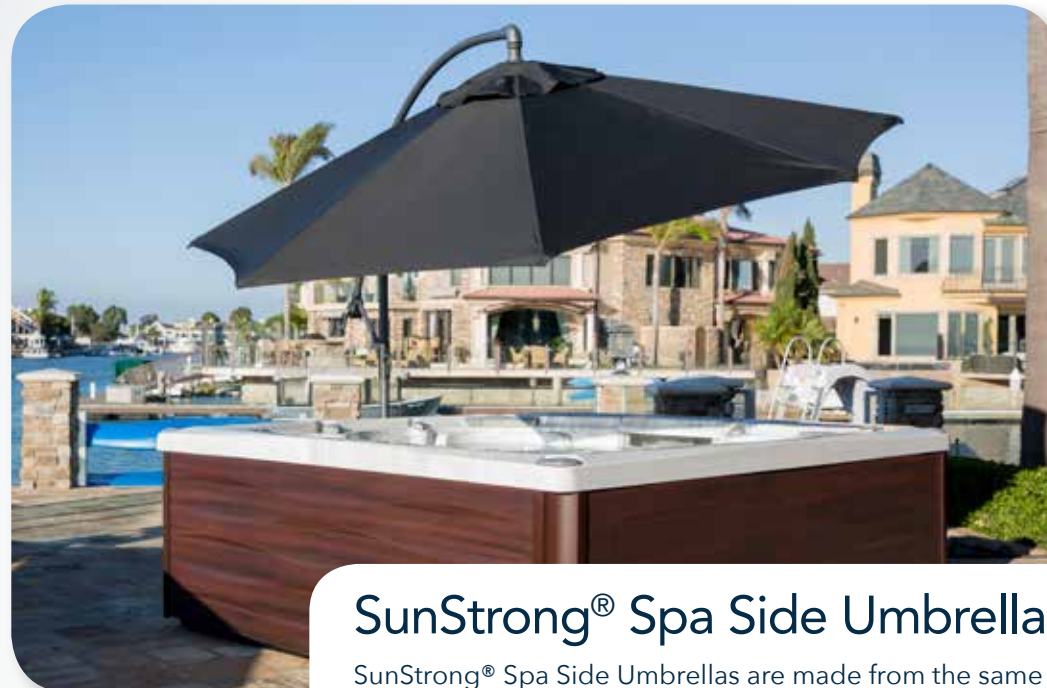

Duetto

Note: Color options vary by model. See dealer for details.

Genuine Parts & Accessories

Engineered specifically to optimize your experience, Sundance® Genuine Parts and Accessories prolong the enjoyment of your spa, letting you focus on the way you and your family feel when you use your Sundance® spa.

SunStrong® Spa Side Umbrellas

SunStrong® Spa Side Umbrellas are made from the same material as SunStrong® Covers and complement your spa cover perfectly, providing protection from the elements while adding privacy.

Pillows

Created to purposefully pose the body in a relaxing position to maximize the benefits of hydrotherapy, Sundance® Spas ComforTone™ headrests and replacement pillow sets are an easy way to quickly update your spa.

Chemicals and Water Care Items

Sundance® Spas, the trusted leader in spa technology, offers a complete line of genuine water care products that are backed by the quality, innovation and service that you expect from our brand.

Steps

Built to make it easy to enter and exit your spa, our durable steps are crafted with weather-resistant synthetic wood materials that coordinate with skirting color options and resists fading, rotting, and cracks.

Sundance® Genuine Spa Covers

Sundance® genuine vinyl and premium SunStrong® spa covers retain heat and help keep water cleaner while cover lifters make using your spa cover easy. Crafted specifically for your Sundance® spa, each marine-grade cover ensures a tight fit while adding a touch of style in palettes that coordinate with your shell and cabinetry.
